

TESOL TRAINERS

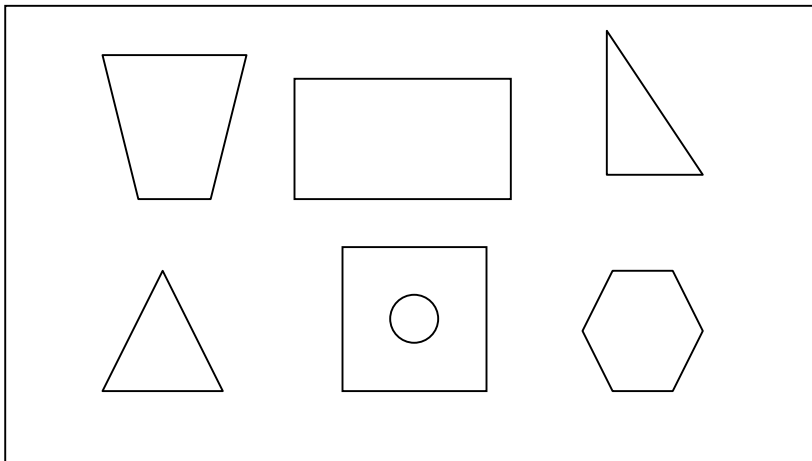

A SCAFFOLD TO SUCCESS

Student A

I Give these directions to your partner:

1. In the middle of your grid, draw a **square**.
2. To the left of the **square**, draw an **isosceles triangle**.
3. Above the **isosceles triangle**, draw a **trapezoid**.
4. To the right of the **square**, draw a **hexagon**.
5. Above the **hexagon**, draw a **right triangle**.
6. In the middle of the **square**, draw a **circle**.
7. Between the **trapezoid** and the **right triangle**, draw a **rectangle**.
8. Compare your picture with your partner & Answer the following questions:
 - What's similar? What's different?
 - What could you do to make it easier for your partner to draw what you have exactly?

II Turn your paper over and follow the directions your partner gives you.

TESOL TRAINERS

A SCAFFOLD TO SUCCESS

III Follow the directions your partner gives you by drawing shapes in the space below:

When finished, Compare your picture with your partner & Answer the following questions:

- What's similar? What's different?
- What could you do to make it easier for your partner to draw what you have exactly?
